Introduction

East African Elevator Company Ltd - a pioneer lift installation and maintenance services company, has been in operation for over 57 years in the East and Central African region. We pride ourselves in having successfully installed over 1,000 units and established a reliable elevator / escalator industry in the region - supported by knowledgeable, competent and dynamic staff.

Trends

Urbanization is an ever growing trend. Population migration from the countryside to cities is changing construction and infrastructure requirements. By 2050, 70% of the world's population will live in cities. Due to the limited space available in urban areas, buildings are developing upwards. Elevators/Escalators are now an essential part of any construction project.

Energy efficient elevator systems Eco-friendly solutions for sustainable building operation

Rising energy costs and growing public awareness of the need to protect the environment have brought about a global rethink when it comes to planning, building and modernization.

Eagle Elevators offers forward-looking innovations that can significantly reduce power consumption without sacrificing quality, performance, design, safety or comfort.

Products

Eagle lifts, Escalators, Dumb Waiters, Micro-lifts, Cash Hoists, Passenger Moving Walks

www.eaecl.net

Services

- Installation of new units
- Servicing Installed units
- 24 hour dedicated call-back response team on motorbikes
- Refurbishment
- Periodic internal inspection of installed units
- Lift consultation and training

Promise

Enhancing mobility from technology to ensure our growth and development is pegged on integrity, client safety and client satisfaction.

We endeavor towards the fastest call back turn-around time, shortest evacuation time, ensuring compliance to periodic maintenance schedules and adhering to all professional safety standards.

Quality: Certifications & Accolades

We are registered and certified by the Ministry of Public Works, Building contractors Registration Committee to undertake lift installations under category 'C'. We are also qualified for the newly instituted National Construction Authority Certification for the NCA1 category.

The company received the "Model for quality assurance in production, installation and servicing" ISO9002 certification and is arduously working towards the ISO9001:2008 standardization certification.

In 2011, we scooped position 70 in the Kenya Top 100 Mid-Sized Companies to become the only company in the lift industry to display all round stability amidst a myriad of extreme economic and competition challenges.

Essentially, a "Top 100 Mid-sized Company" ("Top 100 Company") is one which ranks ahead of its peers in terms of revenue growth, profit growth, returns to shareholders and cash generation/liquidity.
